Cross-Stitch Kits

*Perfect product
for hobby,
pleasure
and inspiration*

In this new catalogue, RTO, a well-known manufacturer and supplier of cross-stitch kits, would like to introduce original and inventive embroidery works, diverse and unique designs with exclusive embroidery techniques.

We use the basic painting principles, special techniques and a rich palette of DMC embroidery thread to create an atmosphere of lightness, airiness and transparency. While saving the full intensity of colours, we keep all important details and shades in subtle colour transitions.

A popular watercolour painting technique is presented in our catalogue with the variety of works. They convey with amazing accuracy the effects of overflowing paint and create the feeling of a live watercolour. You will discover a magical transformation of DMC threads. Large interior embroidery works shine from within. A combination of shades creates a play of light and enhances the brightness of colours of this decorative embroidery.

For the first time in our catalogue, you will find new designs with images printed on canvas, which are full of different kinds of art stitches. The embroidered pieces have a trendy modern look, and it is finished quickly and easily.

Our city sketches will be a pleasant reminder of life around you. Fashion trends have many designers turning to nature for new ideas - the new collection is full of mysterious forest landscapes, silhouettes of curved branches, mystic flowers bloom on the cushions.

Embroidered floral designs and landscapes will create a feeling of a warm summer day, peace and tranquillity in your interior. The cuteness of the children's themes and the modest charm of miniatures will add a cosy atmosphere.

In addition to our wide range of traditional embroideries, now we offer innovative DIY cross-stitch kits including plywood decorations that would allow customization for every kit to have different end result.

Today's trends are the game of contrasts and rich colour combinations. In our work, we use only the best materials to create unique products, different in style and mood, but always filled with warmth and love! All RTO kits are assembled by hand and sold in transparent polypropylene bags with a hook. The contents of the package are listed on the reverse side: DMC embroidery threads, canvas and scheme. All text on the label and in the instruction is in English. Additionally, a booklet with instructions in 9 languages is included in each kit. Threads and canvas included in the kits are given with a good margin. In larger kits, DMC threads are sorted by the colours and attached to a convenient card.

We include in kits DMC or Zweigart fabric, a special needle for embroidery (England), colour card and character label scheme. There are additional components in many sets.

Under each design in the catalogue, we indicate the type of embroidery fabric included in the kit.
