

# DIAMOND PAINTING

IT'S EASY TO CREATE **SOMETHING WONDERFUL**

# What is Diamond Painting?

## Great hobby for everyone

Diamond painting is very easy and entertaining trendy hobby and it can be enjoyed by both children and adults. You need no special skill to create an amazing sparkling picture made of colourful crystals. You can see your masterpiece come to life step by step with this creative and relaxing hobby.

Everything you need is already included!

## The kit contains:

- ✗ adhesive canvas with assembly chart
- ✗ sparkles of square or round shape with +20% reserve
- ✗ plastic container for sparkles
- ✗ stylus with gel
- ✗ instruction

## Decorate your interior

You can frame the finished picture and use it as unique and stylish interior decoration.

# Why choose Mosfa?

1

## Leaders of the regional market

We are the first company that launched its own production of diamond painting kits in Europe

2

## Own manufacturing facilities

Full production process from design to final product

3

## A wide range of designs

New product designs regularly, according to customers preferences and trends

4

## Highly tailored product designs

We check the quality of our kits at all stages, from design development, to equipment compliance

5

## Rapid development

Our company is always open to communication with partners. Together we are looking for new ways to make our kits better

# How to use

## Preparatons:

Unpack the kit, take it's components out of the box. Unroll the canvas. Remove the small part of the protective layer.

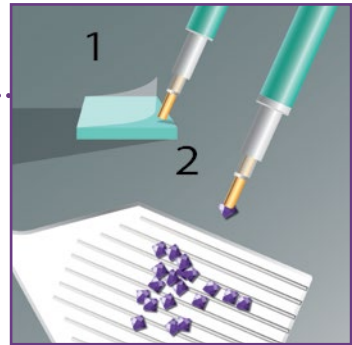

### Step 1:

- ✘ Find sparkles with a number listed next to the symbol in the table.
- ✘ Put sparkles into the container.
- ✘ Slightly shake the container until the most of sparkles roll over and lay face up.

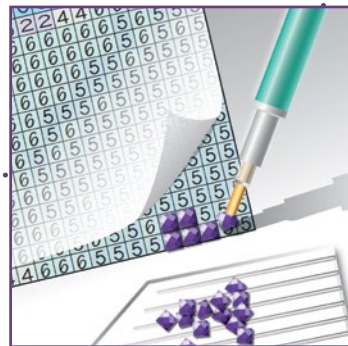

### Step 2:

- ✘ Fill the tip of the stylus with a small amount of gel.
- ✘ Use stylus to take sparkles out of the container, one sparkle at a time.
- ✘ If sparkles stop sticking to the stylus simply refill it with the gel.

### Step 3:

- ✘ Put each sparkle on it's place on the canvas according to the table.
- ✘ Fill the whole scheme.

### NB!

- ✘ When transporting the unframed diamond painting, roll it with sparkles outwards.
- ✘ Do not remove the whole protective layer from the canvas in order to prevent the adhesive compound's viscosity loss and avoid hands sticking to the canvas.
